

# WHY JOIN THE VetTechCAS™ COMMUNITY?

Liaison International, in partnership with the Association of American Veterinary Medical Colleges (AAVMC), will work with a group of veterinary technician program directors to determine the value of a Centralized Application Service (CAS™) specifically for vet tech programs. We have found this close collaboration invaluable in defining the requirements and implementation plans for VetTechCAS and we will soon convene an advisory group of program directors to guide the development and implementation of the new service.

VetTechCAS, which will offer a centralized online portal through which prospective students will learn more about vet tech programs, will facilitate applying to multiple programs of interest with just one set of transcripts, test scores and letters of recommendation.

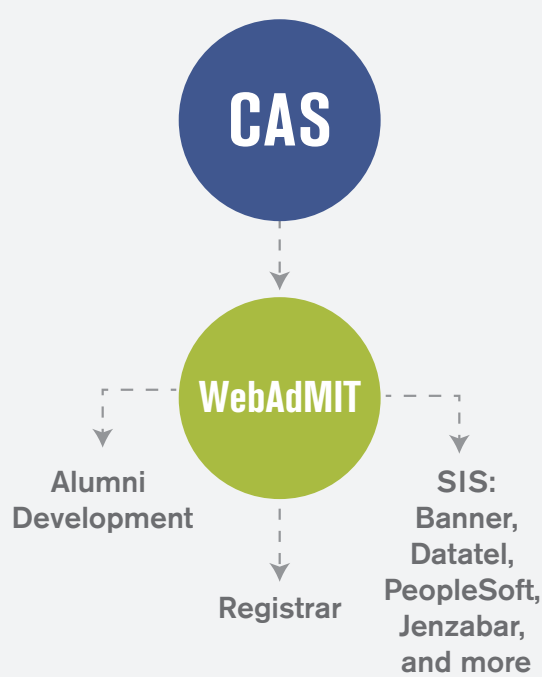

## A SAMPLING OF THE RESULTS SEEN BY USING A CAS

**90%** Decrease in manual administrative tasks.

**75%** Decrease in application processing time from initial application to acceptance.

**69%** Reduction in time to final decision.

**10%** Increase in diversity of incoming class.

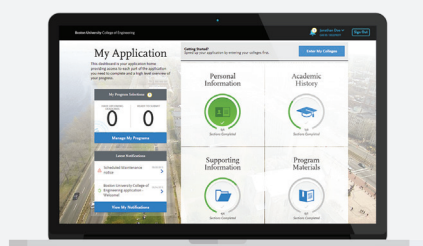

A CAS can easily integrate into existing data systems.

There is no cost to schools for participation in VetTechCAS.

“ Michigan State University is interested in partnering with Liaison for VetTechCAS. We invite other vet tech programs to join us as early adopters to help shape the application process in the initial launch for 2017. ”

Helen Mayer & Jolynne Judge, Co-Directors, Michigan State University.

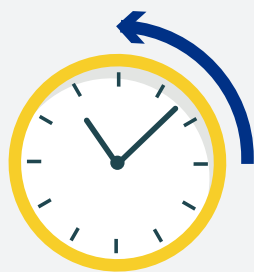

Fully customizable and branded software lets schools define their unique workflows and program-requirements, and retain total control of all admission decisions.

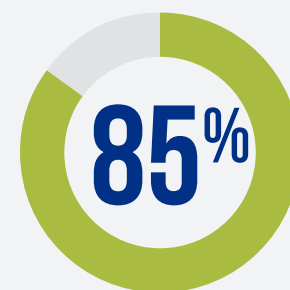

## #1 FEATURE

The #1 feature of importance to potential students is the convenience of having program data and applications in a central site.

Source: Participants in Existing CASs

A CAS will reduce the time from when a student submits the application to when it has been verified and available for program review.

85% of programs surveyed expressed a desire to increase their applicant pool!
